EDUCATION

MCT's Rajiv Gandhi Institute of Technology,versova   mumbai
B.Tech Computer Engineering   *2021-2025*

Bhavans College of Arts,Science and Commerce,Andheri   mumbai
HSC Science   *2019-2021*

EXPERIENCES

The Sparks Foundation — Intern
mumbai

- The task was to make a Basic Banking System where I used PHP, HTML,CSS JavaScript and MySQL.

PROJECTS

Computer related Inventory Management System for RGIT | *HTML ,CSS, Java Script, PHP, MySQL*   link

- This System is Specifically created to manage all the computer-related inventory for the college from issuing inventory to various departments to scraping faulty inventory

Password Generator (using REACT) | *REACT ,TAILWIND CSS*   link

- This small project is an optimized password generator built using REACT, various concepts of hooks have been used

Currency Converter | *HTML ,CSS, Java Script*   link

- Currency converter using API

ACHIEVEMENT

Ideathon'24

- During the ideathon, we explored creative solutions to enhance access to nutritious and delicious homemade food, leveraging technology and community engagement. It was an incredible opportunity to brainstorm, ideate, and collaborate with like-minded individuals passionate about making a difference.

IBM Certificate Data Visualization in Python

- Learning how to create different types of charts and plots using Python libraries like Matplotlib, Seaborn, and Folium.

IBM Certificate Data science orientation

- Acquired practical skills in data wrangling, visualization, and predictive modeling techniques, enhancing proficiency in extracting valuable insights from complex datasets

virtual Data Science Internship at INTERNSAVY

- worked on an admission analysis project, This project aims to estimate the chance of admission to college by considering attributes like GRE score, CGPA, Research, TOEFL score, SOP, and LOR. Linear regression models yielded remarkable results, achieving an accuracy rate of approximately 82%.

TECHNICAL SKILLS

Programing Languages: C/C++, Python, JavaScript, PHP
Frontend Development: Html5, CSS, JavaScript, React
Libraries/Frameworks: React.js, TailwindCSS
Database Management: SQL
Tools: VS Code, PyCharm, Git, GitHub,MySQL, Xampp server
Platform: Infinity, Netlify, GitHub Pages, vercel,
